

Catch::MessageStream

```
graph BT; MB[Catch::MessageBuilder] --> MS[Catch::MessageStream];
```

A UML class diagram showing an inheritance relationship. The class 'Catch::MessageBuilder' is at the bottom, and 'Catch::MessageStream' is at the top. A solid blue arrow points from 'Catch::MessageBuilder' to 'Catch::MessageStream', indicating that 'Catch::MessageBuilder' inherits from 'Catch::MessageStream'. The 'Catch::MessageStream' box has a light gray fill, while the 'Catch::MessageBuilder' box is white.

Catch::MessageBuilder
